### **Bonuses**

2. Fixed Bonus – Monthly (4 weeks cycle)  
- Paid every month, based on fixed criteria (like levels).

### **3. Binary Bonus – Weekly**

Calculated weekly, with closing every Saturday at 12:00 Noon  
Always calculated on the weaker leg/side volume of your binary team.

If you don't use all your binary bonus, the extra carries forward to next week.

### **Binary Bonus Carry Forward Rules**

If you don't have an active subscription, your unused binary bonus will expire after 28 days. After that, if you rejoin with the same ID, your volume is gone, but your team remains. So you can still benefit from your existing team.

### **Lifestyle Fund (10% of Your Total Payout)**

Your earnings include extra funds for different life goals:

| Fund Type | Percentage |
|-----------|------------|

|----------------|----|--|
| Jewellery Fund | 2% |  |
| Travel Fund    | 3% |  |
| Car Fund       | 3% |  |
| House Fund     | 2% |  |

### **E-Pin Charges**

Each E-Pin (used to activate someone or yourself) costs \$2

### **Capping Rules for Fixed Bonus**

You can earn a maximum Fixed Bonus equal to 40% of your top performing team's performance.

Example: If one direct team makes \$1000, you can earn up to \$400 as Fixed Bonus.

If you don't earn full bonus in a month, the remaining can be rolled over to the next month.

You only get Fixed Bonus if you complete certain levels.
